

Handwriting leads to mistakes...

Ordering IDEXX reference laboratory tests with hand-written forms can lead to mistakes through misinterpretation. Results that come back with errors like misspelled patient names or missed tests often mean more time on the phone and unnecessary frustration.

IDEXX Reference Laboratories

SMALL ANIMAL REQUEST FORM
In order to enable us to process your sample(s) efficiently, please complete all information on this form.

LAB NUMBER (LAB USE ONLY)

IDEXX **VetConnect PLUS** is the best solution to prevent mistakes happening when diagnostic testing is sent out.

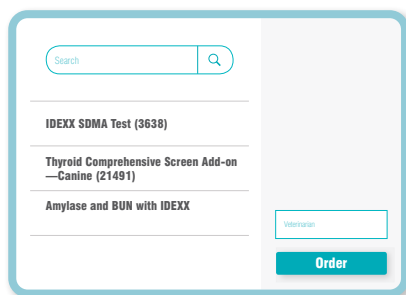

VetConnect® PLUS helps you to choose and order your reference lab tests electronically and it couldn't be simpler;

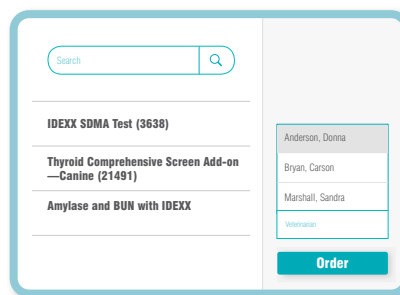

1. Click the **Order New Diagnostics** button at the top right corner of any screen while logged into vetconnectplus.co.uk.

2. Select your patient and click **Next**. VetConnect PLUS pre-populates a form with the patient info maximising accuracy.

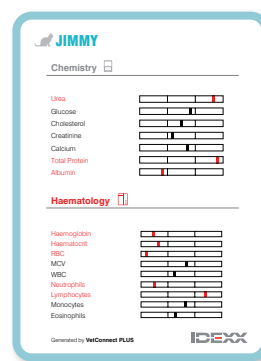

3. **Choose the tests** you want to run, or **search** by body system or test category. VetConnect PLUS **filters** tests appropriate to that patient's species.

4. **Select a vet** from the dropdown list and click next.

5. **Print the form** to send with the sample and an extra copy for your files if needed.

6. Receive your results as and when you were expecting them, with no mistakes and no unnecessary calls to the lab.
